FOREWORD

Look through these pages and be convinced that Union University is really a great, growing, up-to-date school. Observe the numbers, the enthusiasm, and the variety of courses, activities, and advantages.

Few schools have more spirit and "pep," which indicates vigor and life. Young folks like it because it gives them the spirit and enthusiasm necessary to enter successfully in the conflict of life.

Union literally pulsates with the vigor and enthusiasm of young life, and yet there is all of the time a sense of tremendous energy under fine control, which gives a pleasing sense of power, security, and efficiency. It is just the atmosphere to please the choicest young people, and it develops the best that is within them.

LOCATION

Jackson is a city of 20,000 people, and situated in the very heart of West Tennessee. There is not a more accessible place anywhere. Railroads radiate out in eight directions. Three national highways intersect here. There are twenty-eight trains with an unexcelled schedule. Literally thousands of high school graduates can reach Jackson without a change of train. Jackson is a church-going town. Fifty per cent of the population have their names on church books, and \$750,000 is the investment in church buildings. What city of 20,000 can equal this record?

The climate is fine, and the water supply can hardly be equaled.

BUILDINGS AND EQUIPMENT

Union has five buildings: Barton Hall (Administration Building), Lovelace Hall (for young ladies), Conservatory (a self-boarding hall for young ladies), Adam's Hall (for young men) and the power house. These buildings and the grounds cannot be replaced for \$400,000. The endowment is \$140,000, and Union's remaining part of the 75 million fund is \$275,000, or a total of \$815,000.

ATTENDANCE

The enrollment for the past year was 741 against 157 in 1914. The summer school which is in session at the time this article is written has already gone above 325, which far surpasses any previous record. The outlook for next fall's enrollment is equally flattering.

DEPARTMENTS

Graduate, offering courses leading to the A. M. degree.

College, offering courses leading to the A. B. degree. Diplomas secure first grade High School certificate in Tennessee and most Southern and many Northern States.

Theological, offering practical courses for preachers, missionaries, and church, and Sunday school workers.

Law, offering a two-years' course leading to the LL. B. degree.

Agriculture, offering exceptionally strong courses, using the West Tennessee Experiment Station as a laboratory.

Pre-Medical, meeting the requirements for entrance into standard medical schools.

Junior Engineering, offering the first two years of a standard four-year engineering course. Students doing this work may enter the Junior year of Georgia Tech, as other schools of Technology.

Musical, offering very fine courses in Piano, Violin, and Voice, and Organ.

Domestic Art and Science, offering the usual courses.

Military, R. O. T. C., a strong unit.

Educational,—several strong courses.

Expression, offering varied and strong courses.

Commercial, offering the very best advantages for a thorough business education.

*God of our fathers, known of old—
Lord of our far-flung battle-line
Beneath whose awful hand we hold
Dominion over palm and pine—
Lord God of hosts, be with us yet,
Lest we forget—lest we forget!*

*The tumult and the shooting dies—
The captains and the kings depart—
Still stands Thine ancient Sacrifice,
An humble and a contrite heart.
Lord God of hosts, be with us yet,
Lest we forget—lest we forget!*

*Far-called our navies melt away—
On dune and head and sinks the fire—
Lo all our pomp of yesterday
Is one with Nineveh and Tyre!
Judge of the nations, spare us yet,
Lest we forget—lest we forget!*

*If, drunk with the sight of power, we lose
Wild tongues that have not Thee in awe—
Such boasting as the Gentiles use
Or lesser breeds without the Law—
Lord God of hosts, be with us yet,
Lest we forget—lest we forget!*

*For heathen heart that puts her trust
In reeking tube and iron shod
All valiant dust that builds on dust,
And guarding calls not thee to guard—
For frantic boast and foolish word,
Thy mercy on Thy people, Lord!*

—Rudyard Kipling.

Foreword—

WE present herewith the ninth volume of "Lest We Forget." In this issue we have striven to reach a standard of excellence hitherto unattained, and one which may prove as a stepping stone to yet higher ideals. If our undertaking has met with any measure of success, it is due to the untiring zeal and painstaking efforts of those members of the staff who so conscientiously and well have executed the tasks entrusted to their care. To them we express our thanks for the kindly manner in which they have aided our work, the interest manifested therein, and the many timely suggestions offered in the maze of difficulties which have constantly confronted us. Our task, though arduous, has been a pleasant one; though trying, a welcome one. Into the hands of its readers we commend this volume, with no fear lest they judge of its faults too harshly; and yet with the hope that they may find herein some touch of merit, some little mark of worth, which alone can be the reward for our labor of love, which we trust may not have been wrought in vain..

The staff is grateful to the Senior Class for the cover design and running heads; Dr. Watters for many timely suggestions; and the Long-Johnson Printing Company for a multitude of favors and suggestions, without which the 1920 Lest We Forget would never have been what it is.

Dedication

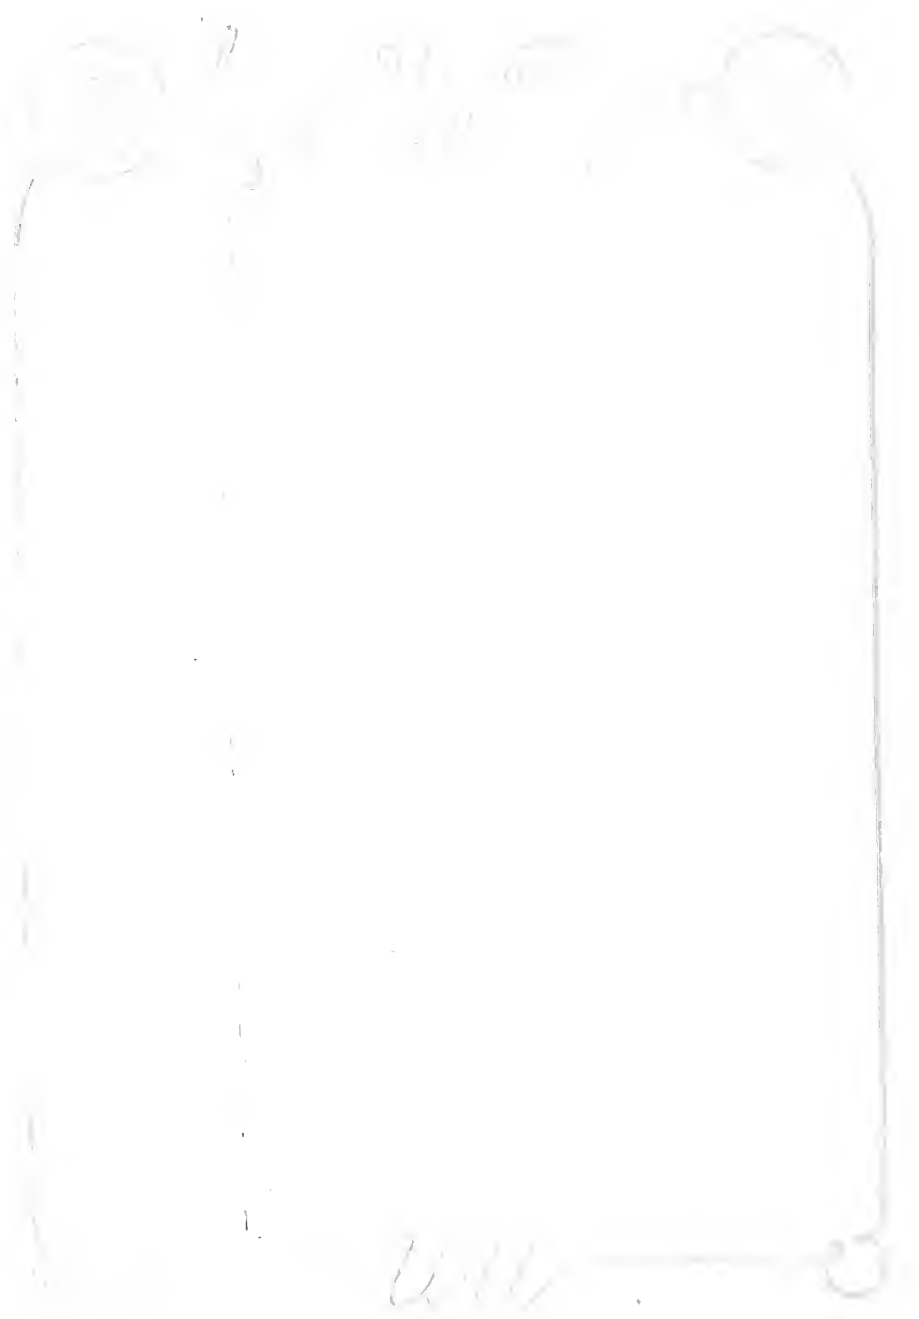

to

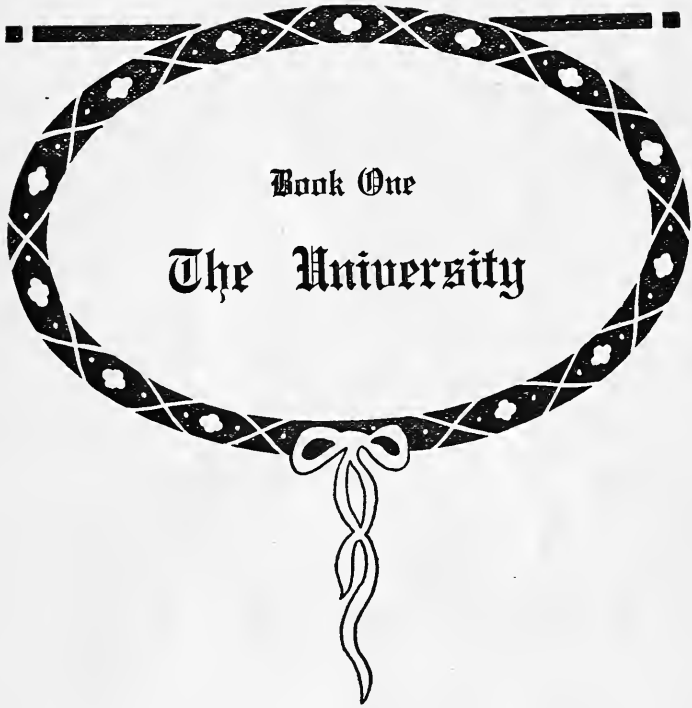

Henry Eugene Watters, M.A., D.D.

President of Union University.

A courteous gentleman, a profound scholar, a proficient instructor, who, by his interest in the general welfare of the students, has won a lasting place in their hearts, this volume is affectionately dedicated.

The University

History of Union University.

IN the year 1845, the Baptist General Assembly of Tennessee, feeling the need of an institution of learning of higher order, resolved to establish and endow a college known subsequently as Union University.

The establishment of this college was the result of twelve years of arduous toil by the members of that body, who had happily enjoyed the warm co-operation of their brethren and friends throughout the State, and North Alabama. The institution was organized as a college and began its first session the first Monday in January, 1848.

The college was endowed with Fifty-five Thousand Dollars, and was located in Murfreesboro, a handsome, thriving, and healthy village, the County seat of Rutherford County, in the center of one of the finest regions in the State; and, from the elevated character of its inhabitants for intelligence and morality, it was remarkably well adapted to the location of a literary institution of high order.

As to site, the location was unusually good. The town of Murfreesboro was accessible in every direction by good turnpike roads, and the great South-Western Railroad from Nashville to Chattanooga was in rapid progress, and cars were daily passing between that place and Nashville. The University buildings were situated nearly a mile from the public square on an extensive and beautiful campus, commanding a splendid view of the adjacent country. Valuable apparatus in the departments of Natural Philosophy and Chemistry, also well selected cabinets in Mineralogy and Geology belonged to the University. The Library contained a number of choice volumes. The Literary Societies also had libraries of their own.

The first president was Joseph H. Eaton, who held his position until his death in January, 1859.

The first faculty was composed of the following members: Joseph H. Eaton, Professor of Mathematics; David Breidennthal, Professor of Languages; P. W. Dodson, First Tutor; George Jarmon, Second Tutor.

The course of study was as follows: Freshman, Mathematics, Greek, Latin, Physiology; Sophomore, Mathematics, Greek, Latin, History, Rhetoric; Junior, Mathematics, Greek, Latin, History, Natural Philosophy, Chemistry, Logic; Senior, Intellectual Philosophy, Greek Philosophy, History, Political Economy, Geology, Moral Philosophy, Butlers Analogy, Mineralogy.

There was also a Preparatory Department connected with the University, in which pupils of every degree of advancement were received; but for admission into the University proper, an acquaintance with the following authors, and studies were required: Grammars of the English, Latin and Greek languages, with applications, Greek Reader; Geography, Arithmetic, and First Lessons in Algebra.

During the years from 1861, inclusive, the school was suspended on account of the Civil War. The building was considerably damaged by the armies, the library and apparatus destroyed, and the endowment was wholly lost.

The school was reopened in 1866, and continued until 1873, when an epidemic of cholera and other causes led to a suspension of all work.

On the 10th day of April, 1874, a convention was called at Murfreesboro to consider the question of re-establishing a college for the entire State, and a committee was appointed to locate it. Among the various propositions presented, Jackson was selected as the best site.

On August 12, 1874, the Tennessee Baptist Convention, then in session at Trezevant, appointed a Board of Trustees consisting of thirty-five members. The institution was chartered by the State on June 25, 1875, under the name Southwestern Baptist University.

On August 5, 1890, a deed was made to the Southwestern Baptist University of the campus, known prior to 1875, as West Tennessee College. Colonel J. W. Rosamon, as financial agent, in six months, raised the sum of Thirty Thousand Dollars.

During the year 1890, Miss Willie Edwards, of Shelbyville, Tennessee, made a gift to the endowment fund amounting to Three Thousand Three Hundred and Ten Dollars. In November of this year, the American Baptist Educational Society appropriated Twelve Thousand Seven Hundred Dollars, as an endowment to the University under certain conditions, which were met.

Through the liberality of W. T. Adams, of Corinth, Mississippi, a dormitory for young men was erected in 1895. And in 1896 this building was enlarged by the addition of a three-story front. In 1897, a dormitory for young ladies was erected, which in consequence of a large gift from Mr. J. R. Lovelace, of Martin, Tennessee, was named in honor of his son, Everett Lovelace Hall.

In 1879, a movement to endow the chair of Logic and Moral Philosophy, in honor of Dr. J. R. Graves resulted in raising \$10,000. Dr. H. C. Irby was secretary of the movement. Dr. Irby, through work and his liberal gifts in money, has been a great asset to the University. His gifts in all have amounted to Twenty-five Thousand Dollars.

A new chapel was completed in 1899, and in honor of Dr. W. D. Powell, was named Powell Chapel. In 1901-2, the Perry Estate became the property of the University. With this the Perry School of Bible Instruction was established in memory of Benjamin W. Perry, who gave his estate, amounting to Twelve Thousand Dollars, requesting it to be used especially in the education of young ministers.

In May, 1905, the General Educational Society offered the trustees Twenty Thousand Dollars on permanent endowment, if the friends of the institution would promptly raise Seventy-five Thousand Dollars. The effort securing this offer in 1906 was successful under the leadership of President Hale.

At a meeting of the Board of Trustees, September 17, 1907, the name of the institution was changed from Southwestern Baptist University to Union University, the name given it in its organization in 1845.

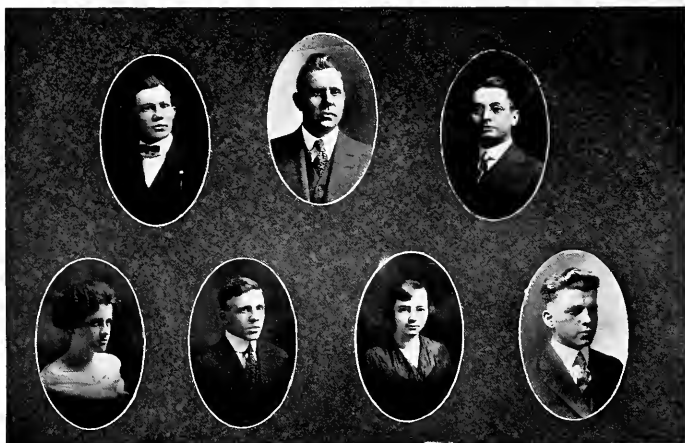

In January, 1912, the chapel and main building of the institution were entirely destroyed by fire. On account of the liberal gifts of Colonel O. C. Barton, the new administration building was named in his honor, Barton Hall.

The following are the names of the presidents who have served the University: J. M. Pendleton, G. W. Jarmon, who served as president both before and after the Civil War; Duncan H. Selph, Chas. Manly, Geo. W. Jarmon, G. M. Savage, J. W. Conger, I. B. Tigrett, who served as acting president of the institution 1909-11, R. A. Kimbrough, R. M. Inlow, and A. T. Barrett, who served as acting president 1913-14, 1914-15. June 1915, G. M. Savage was again elected president, and served until 1918, when Dr. H. E. Watters, the present head of the University, was chosen.

Union University Office Force.

THE office force is one of the most thoroughly organized forces of the University. Dr. Watters can be found at his desk with his patient smile and knitted brow, always looking and watching after the best interests of the University and each individual student.

Prof. Derryberry is in the adjoining office with a sharp eye for business students, and catches everyone that comes near Jackson; and, after relieving them of the enrollment fees, conducts them to the business department, returns to his office and waits for the next wayfarer.

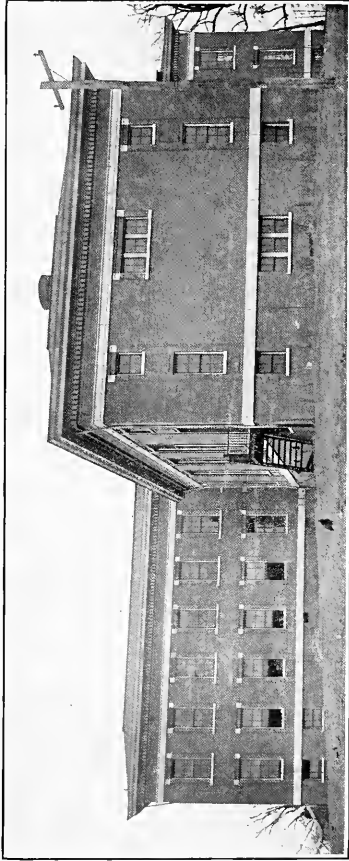

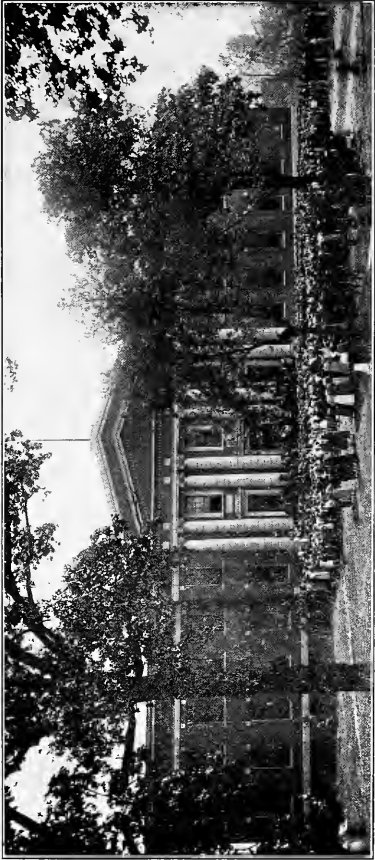

Prof. McAliley, the bursar, is constantly found at his desk in the front office on enrollment days, and in his courteous way receives all fees and issues class tickets. The University does not have a more systematic, or a shrewder business man.

Mr. W. Q. Maer, the book-keeper, can be found at his desk in the president's office carefully recording the accounts of the office. Mr. Maer is an expert book-keeper and has the teachers' checks out on time.

Mr. W. H. Jernigan, who keeps the records of the University and acts as one of Dr. Watters' stenographers, is strictly business and courteous. He keeps the records of the University in Number One shape, and is always willing and ready to accommodate each and every student who needs his assistance.

Miss Rachel Gardner, stenographer of the president, is one of the quickest and best stenographers in town. She can fill any of the positions in the office from Dr. Watters down.

Miss Susie Jones, who keeps the Chapel records and sends out the reports, is an indispensable asset to the office force.

The Students' Activity Association.

THE first thought of a Students' Activity Association for Union University originated in the mind of our much honored and loved President, Prof. H. E. Watters. He saw during the years of the past, that the athletic associatoin and other college activities were supported almost altogether by donations from the students and faculty, and that at all times there was an insufficiency of funds to equip and send out good teams, and to schedule games with high class teams, much less to present to the student body musical and literary attractions, of an educational nature, in the form of a lyceum course. So at the beginning of the spring term of 1919, Prof. Watters submitted his plan of a Student's Activity Association to the student body for approval. His plan was that each society and fraternity elect two representatives and that these representatives would form a Student's Executive Committee which would be the directors of the activities of the association.

The student body voted to adopt this plan so the Executive Committee met about May the first to organize and be ready to operate on a good basis at the beginning of the school year of 1919-20. Mr. L. P. Royer was elected chairman of the committee, Mr. Eugene Johnson, vice-chairman, Miss Bess Powell, secretary, Mr. W. Q. Maer, treasurer, Mr. Roy Hall, business manager, and Miss Elizabeth Jarvis and Mr. J. L. Hodge, salesmen. As the chairman of the committee failed to return to school this year, Mr. Roy Arbuckle was elected chairman to fill the vacancy.

Under the management of Mr. Hall, the association has prospered in a remarkable way. The association handles all the books and stationery for the students, and from this source it derives a good income. The association also handles the laundry, operates a pressing shop, shoe shop, and a barber shop, and these also add to the income. Besides this, a co-operative buying system was inaugurated by which the merchants of Jackson gave to the association 5 per cent. discount on all cash purchases of the students. From these various sources a very good sum of money has accumulated.

The Student's Activity Association, with the proceeds of these enterprises, has been able to aid all student activities in a substantial way. There is no doubt but what Union has put out better teams, played better games, and had a more successful year in athletics than for the past several years. The association also aided four delegates to go to the Student's Volunteer Convention at DesMoines, Iowa, in January. Also it has brought to the students a lyceum course of six attractions. The Student's Activity Association has been a great success this year, and we are looking forward with pleasant anticipation to even greater success in the years to come.

Cardinal and Cream.

THE CARDINAL AND CREAM has just closed an unusually prosperous and successful year under the direction of Miss Tooms as Editor and Mr. Arbuckle as Business Manager. Miss Tooms chose an efficient staff of assistants and all editions have been a source of pleasure and inspiration to the many readers. Mr. Arbuckle has been prompt in getting the paper out and into the hands of the subscribers and has at all times been courteous and open to suggestions.

The success of the paper has been due in no small part to the diligence and painstaking efforts of the staff. The members have tried to make the Cardinal and Cream the official organ of the school, presenting fairly every department and faction.

The Graduate Department of Union University.

For several years Union University has been allowing an occasional student who had taken his Bachelor's degree in the school to do a certain amount of additional work and then confer the Master's degree upon him, but in the session of 1919-20 there is being maintained a regularly organized department for carrying on graduate work. Several of the heads of the college departments are offering graduate courses and a good number of the graduate students are availing themselves of the advantages of these courses.

The courses this year are composed of English, Mathematics, Hebrew, Philosophy and kindred subjects, and it is expected that these courses will be augmented considerably next year. There seems to be an increasing demand for this class of work among students of Union University, and the work justifies the maintenance of the department.

Union University has always done a very high grade of college work, and her graduates are scattered into almost every clime. The records that these men and women have made in their respective professions and callings have brought honor to their Alma Mater and have given proof of the thorough training that has been applied in their work. It is to be confidently expected that within a few years there will be a very large number of students, not only of those who have done their work for the Bachelor's degree in Union University, but many who will be attracted from other colleges, who will come for the splendid courses in graduate work which are now being offered and the others which are sure to be demanded.

Junior Class Poem.

Life hath a goal,
And we would be there;
Life hath a goal,
And nurturcth there
For us success
The beguiler of care,
On high is our goal;
And we would be there.
Grand is our goal;
And wealth cometh there.
Afloat with praise
That mankind doth bare;
There is our goal
On Earth most fair,
Pierian goal,
And melody there,
The voice of the Nine,
Is borne on the air
Over our goal,
And we would be there—
Olympian goal,
For heaven is there
With spirits divine,
The Graces are there—
We'll conquer true,
For we would be there.

Sophomore History.

Yes, we admit that we were once Freshmen. Even the Class of '20 was compelled to go through such an ordeal. Why mention that we, as Freshmen, were green, that we ran about the campus like so many frightened animals? The name Freshmen alone implies all such antics.

As poor, down-trodden Freshies, we endured many abuses. O, those many humiliations we were forced to undergo! Possibly a less resolute class would have despaired with a "what's the use"? Not so with the immortal class of '22. Disappointment only kindled the fire of our determination; work only tempered the steel of our courage.

Ah! Our Freshman days are in the dim and distant past. We become amused at the Freshmen frolics daily displayed about the campus. The Fish, in turn, deplore our dispositions as harsh and antagonistic. Too bad! We prophesy that later they will see their grave mistake and recognize in us a guiding hand, a blessing in disguise. Here's to that day!

In conclusion, we Sophs enter into all the activities of school life. We can not be defeated for just look at our motto: "Facta non verba." Something is bound to happen soon. Already we feel ourselves rising to the position of Juniors—then, Seniors. And then—oh—*just watch us.*

WHAT DYNAMIC FORCE?

What dynamic force, what power unseen
To labor and to toil constrains within?
Is it the joy of the sweet comradeship,
Of Sage Minerva, she of the solemn face?
Is it perchance the visionary fancy,
Of dwelling in the jeweled Hall of Fame,
The glittering Hall where men of the ages dwell?
Fair Terra, two more journeys wilt thou make
Round Phoebus throne on thine appointed tour,
And we shall leave the walls we love so much,
The place which in our memories will have,
A sacred sanctuary till the end doth come.
But what the purpose of our biding here?
Oh 'tis not glory or fame that we desire,
'Tis not for wisdom's sake that we aspire
To obtain the knowledge that we here acquire.
Oh, 'tis not that, but 'tis a burning fire
Flaming within, unquenchable desire,
Others to serve, to do what's left undone.
Oh glorious privilege! It's this alone
That doth constrain us here to acquire light
That we may bear our light into the night!
Take away laurels, honor, glory, name,
Veil from our eyes the radiant Hall of Fame,
But never, Oh, no, never take away,
The privilege to serve from day to day!

THE GOAL AHEAD

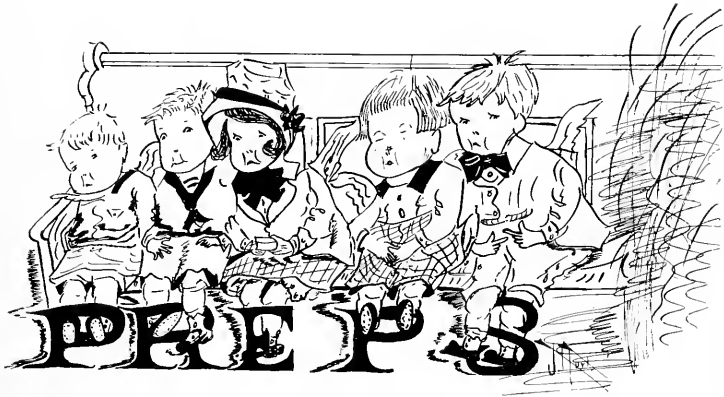

With Apologies to Poe.

We have longed to reach this goal,
We have yearned with all our soul
 Just to be a man in college—happy-day;
But since we have passed the line,
And have left the "preps" behind,
 We have found our goal still many miles away.

Just to leave the "preps" behind,
Just ourselves a "Fresh" to find,
 Was the only thing we needed as a goal,
But we now have realized,
That the goal we idolized
 Was but just a phantom bright to stir the soul.

We now place our goal ahead,
Far beyond where now we tread;
 Though the way be long and hard, we have no dread;
For some day we'll Seniors be,
And again our goal shall see,
 Then again, as now, we'll place the goal ahead.

—Class Poet.

UNION UNIVERSITY LAW DEPARTMENT

The Fall of 1919 marked the beginning of a new department at Union University, one for which there has long been a demand but which required the foresight and initiative of Dr. Watters to install. Much progress has been made in this, our first year, and prospects for next year are exceedingly bright. With a faculty composed of a dozen or more of the leading lawyers of Jackson and West Tennessee, men who have made a success of their profession and who are thoroughly competent teachers, we feel that our law students will go out as well prepared as those graduating from the larger institutions of law.

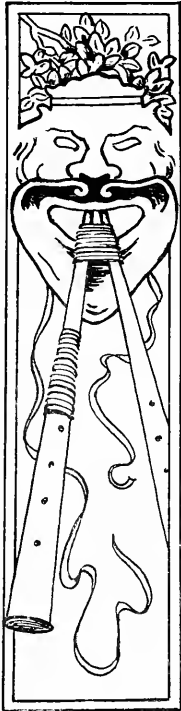

Jackson is especially well adapted as a location for a law school, having access to the following courts: The District Federal Court, Supreme Court, Court of Civil Appeals, Circuit Court, Chancery Court, County Court, and Magistrates Court. This includes all the courts of the country with the exception of the United States Supreme Court and the Federal District Court of Civil Appeals. With these courts holding their sessions in Jackson the students of the Union University Law School have an unusual opportunity of learning legal methods by actual observation.

EXTRACT FROM THE JACKSON DAILY SUN

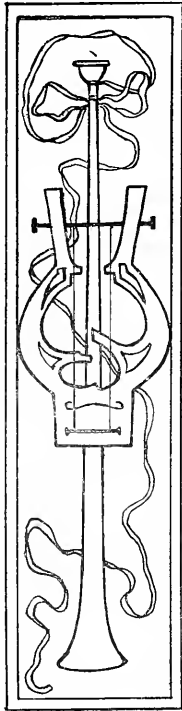

"The Union University Law School is developing rapidly in the great profession of law. Mr. Pope lost his watch the first day he taught the class."

MRS. ARTHUR WARREN PRINCE

MRS. ANNA ELLIS DEXTER

MISS DIANTHA SIMS

DR. J. F. HAILEY

MISS RUTH PARISH

UNDER the able directorship of Mrs. A. W. Prince, the Conservatory has been making splendid progress. Each year the enrollment has been increasing and this year is the largest in its history.

The advantages of musical work in a college are the atmosphere of study and the literary opportunities that offer themselves.

The piano-forte occupies a place of dignity and value and should have treatment commensurate with its place as a factor in musical education. Mrs. Prince is recognized as one of West Tennessee's leading teachers. Post-graduate, graduate and work for teachers of piano is offered.

As the human voice is one of the mediums through which the sentiments of heart and soul can be expressed, people have begun to realize that the Art of Voice Culture is one of the greatest of the "Fine Arts." For several years Union University has been without this department. This year under the direction of Mrs. Anna Ellis Dexter, the department has developed from a nonentity to an enrollment of nearly forty pupils, among whom are soloists, who are singing acceptably in church and recital work. The Glee Club, Ladies and Male Quartet work is exceptionally fine, having given several programs of merit.

VIOLIN DEPARTMENT

Among the other fine Arts Courses added to the University this year was the Violin Department, under the direction of Miss Sims. A great many students have been enrolled and the outlook for the coming year is very promising. She is constantly called upon for both public and private programs and always makes good. Her pupils have been heard frequently and have always reflected credit upon the school.

DEPARTMENT OF EXPRESSION AND PHYSICAL CULTURES

DR. J. F. HAILEY, PH.B., B.O. *Dean*

The Expression Department is one of the many strong departments of the Conservatory of Fine Arts. Dr. Hailey, besides his ability as a teacher of Expression, has acquired a reputation as a Shakespearean reader of no little renown and his pupils are making good, along with the graduates of the other departments of the Conservatory, everywhere they go.

WITH the beginning of the year of '19-'20 Union University saw a new department in action. It was then that Union first offered Agricultural work. The school had not misjudged the need for this department, for with the beginning of the fall term a large number of students enrolled for this work.

The Agricultural Department is one of the strongest departments of the school. We were very fortunate in securing Dr. Davis, a graduate of Ames, for the head of this department. The University has the use of the West Tennessee Experimental Station, which is only a short distance from school, where the students are given practical work and instruction.

The Agricultural Department had not been under way long before the students organized the "Agricultural Club of Union University."

This club is composed of students taking this work and was organized "to seek information which will improve the mind for various walks of life."

The department is now well under way and we predict for it a prosperous and successful future.

OFF FOR A HIKE

IN CAMP

TO THE EX-SERVICE MEN OF UNION UNIVERSITY

By HOLLAND L. BOYD

There's a picture in my memory
Which I've cherished day by day,
Through the months of patient waiting
Since the lads have been away;
'Tis a picture of the parting
Of a mother and her boy
When his country called him loudly,
Him who was his mother's joy.

They were standing in the doorway
Of a cottage on the hill,
With their arms about each other
Bending low to heaven's will;
Though the tears were slowly trickling
Down the mother's furrowed cheek,
Yet she whispered words of courage
With her spirit sad and meek.

"Be, my boy, a manly hero,
Do your best, keep pure and sweet;
Make the word of God your motto,
As a lamp unto your feet;
May God guide your ev'ry footstep,
Lest your feet should go astray;
Go, my boy, and do your duty,
For your country in the fray."

Now we shift the scene of parting
To the college on the hill
Where his pals are standing round him
While the air with shouts they fill;
Weeping girls are standing sadly,
Yet they cheer the hero's heart
With their tear-bathed smiling faces
As they bid him do his part.

Next we look in Argonne forest,
In the din of battle's hell,
And we see our manly hero
Mid the shot and bursting shell;
See him pressing bravely forward
Fighting manfully for right,
Never knowing aught of danger
In the bloodiest of the fight.

What's the message pal, old fellow?
Hitt! I hear no roaring gun,
Peace you say! Ah! boy, God grant it,
Grant that right has surely won;
What rejoicing in the trenches,
What rejoicing in the homes
As this message tells to loved ones,
That the boys will soon be home.

See the great ship sailing proudly
Into port at home once more
Bearing many precious burdens
To the mothers on the shore;
Back home to school to comrades
To the college on the hill
Comes our brave and manly hero
And with joy our hearts now thrill.

Shout a rousing cheer of welcome,
Greet him, laud him loud and long,
Thank a kind and loving Father
That the right has conquered wrong;
And that now our boys are with us,
In these dear old sacred halls,
Loyal to their alma mater,
To their home, their God and all.

Department of Home Economics

"Educating the homes will evangelize the world."

HOME ECONOMICS may not be considered one of the Fine Arts and yet if one should quote from Ruskin's "The Ethics of the Dust" he would be convinced that this great man, who devoted his life to the correlation of the beautiful and useful, did not consider Home Economics a homely art. Indeed it is an art that calls for much knowledge and skill, and is worthy of one's best effort.

During the past two years this department, under the direction of Miss Berta Lou Tooms, has progressed in such a manner that it has become one of the leading departments of the University. New equipment and new courses are being added each year. The growth of the department has been due to the co-operation of the faculty and students.

Young man (at a dinner given by Domestic Science class): This is a wonderful dinner. I would like to meet the cook.

Miss Tooms: Certainly, sir. Shall I send in the automatic roaster, the mechanical fryer, or the electrical toaster?

Miss Tooms: "Mr. Fulmer, you have a very awkward way of eating."

Fulmer: "Yes, I guess it's 'cause I'm out of practice!"

Mr. Derryberry (calling down the stairs to daughter): "Sunshine!"

Daughter: "Yes, papa?"

Mr. Derryberry: "Ask that young man in the sitting-room which he prefers for breakfast, milk rolls or Vienna bread?"

HE SAW RED

Jake: "Girls are prettier than men."

Parnell: "Why—naturally."

Jake: "No—artificially."

Organizations

Religious Organizations

UNION does not neglect the religious side of life. In addition to the Theological Department there are several religious organizations that offer special training to the students. There are four of these organizations, each covering a separate phase of religious service. Special effort is made to reach every student and train them for religious work. These organizations are alive and doing things. The membership in each of them is the largest in history, and never before has such interest been felt.

The J. R. Graves Society of Religious Inquiry is a society for the ministerial students. It was founded in 1877 and named in honor of Dr. J. R. Graves. It meets every Friday afternoon in its own well-furnished room. Here the most interesting religious subjects and doctrinal questions are discussed. The present membership is 100, the largest enrollment in history. Six members of the Faculty are members of this society and add much to the instructiveness of the programs.

Students' Volunteer Band

The Student's Volunteer Band is a society for those students who have decided definitely to give themselves for foreign work. This band was organized in nineteen hundred and sixteen with seven members. At present the membership is eighteen. They meet once a week and give programs on various phases of the mission work. In this way they are better qualifying themselves for their work.

The year 1919-20 has been an unusually successful one for the Apollonian Literary Society. Beginning the year with an enrollment of little more than a dozen, the society now has nearly forty active and enthusiastic members. The success of the organization during the past year is due in no small part to the untiring zeal of its officers and a few of the Senior members. Messrs. Enochs and Burks as respective presidents of the society for the terms 1919-1920 have made the meetings both interesting and instructive and have inspired the members with the enthusiasm so necessary to the success of an organization of this kind.

Often have the walls of Barton Hall been made to tremble with the wonderful oratory of such Apollonians as Hall, Tomme, Parnell, Acklin, VanDyke, and others. Apollonians have figured prominently in the inter-collegiate debates. We feel certain that both the pulpit and the bar of the future will be made to resound with the eloquence and wisdom of the men who have played so important a part in the literary work of this institution.

A BRIEF HISTORY OF THE CALLIOPEAN LITERARY SOCIETY.

The Calliopean Literary Society has been an organization in Union University from the beginning, having been organized in the year 1845. No adequate history of the society could be written in any way other than a comprehensive biography of the hundreds of men who have gone out from her walls to assume their rightful places as leaders in every profession.

Debating Council

The purpose of the Debating Council of Union University is to foster and arrange inter-society and inter-collegiate debates. It is composed of two representatives from each of the three literary societies and the unprecedented number of debates held at Union this year is proof of the council's activity. Another useful project of the Debating Council is the Debating Class composed of the best debaters in the school.

HISTORY

The Navy Club was formed in 1919 for the purpose of bringing closer together the men who had served in the Navy and Marines during the World War. Since the organization meeting, the Club has proved a benefit to all concerned. It has directed its energies along social lines, and has added much to the daily life of not only its members, but to many others. The motto was derived from that ancient Navy saying, "It's not what you do, it's what you get caught doing." So far the Club members have lived up to their motto to the letter. Long life to them! May they flourish in our midst forever.

The Masonic Guild

Although this is the first year that the Masonic Guild has been in operation in Union, it has already proven its value both to the individual members and to the institution. Its membership comprises active men from some of the oldest lodges in Tennessee and other States, and these men count it a privilege to meet together at intervals for a discussion of Masonic ideas with a view towards bettering conditions at Union. With a membership composed both of instructors and students, it tends to bring teacher and pupil closer together and promote a better understanding between the faculty and student body. Any Macon entering Union is assured of meeting friends who are ready at all times to help him become acquainted and feel at home in our midst.

The Raving

By "Joy"—H. M. Sutherland.
(Excuse me, Edgar!)

1

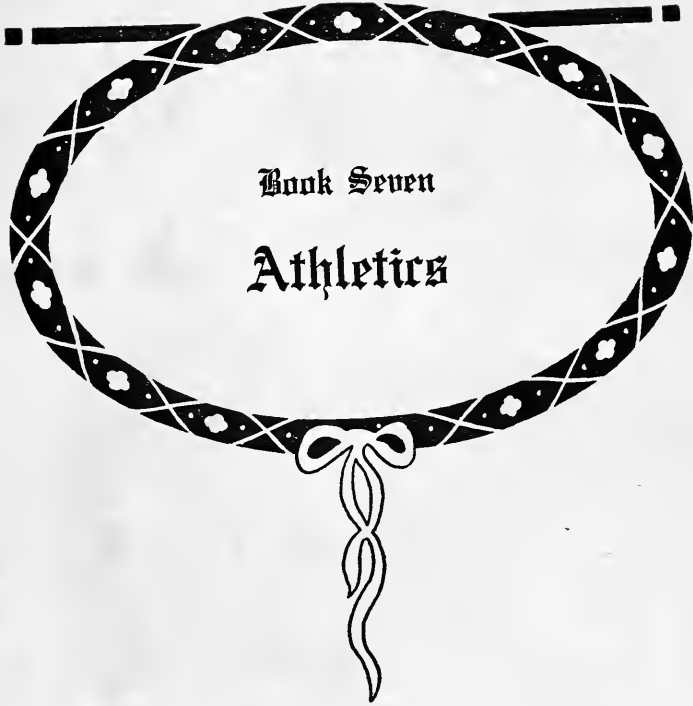

Once upon a noon-day dreary,
While we waited weak and weary,
Waited for the waiters to open wide the
doors,
Suddenly assailed our noses
Nothing like attar of roses,
Neither yet the smell of posies,
But the odor of bologna made a thousand
years before—
Bologna, spuds, and nothing more.

2

Then we entered, shoving, pressing;
Sat and waited for the blessing;
Soon the soup, bologna, prunes, bread and
'lasses were no more.
"Waiter, bring us some more steak,
Help us stop this bloomin' ache!
Hurry up, for Mo:es' sake!
Bring it to us, fill us up, shoot it at us, we
emplore!"
Quoth the waiter: "There's no more."

3

And the waiter, never moving,
Still is snoozing, still is snoozing.
At his post beyond the heavy swinging kitchen
door;
And we clamor, use the hammer,
While old Ceres chuckles d——er;
But in vacation we will cram her
Treasures to our systems till our systems yell;
"No more."
Raise the board two dollars more!

Coach
Joe Guyon
Premiere Halfback
of the World

Coach—

Joe Guyon scarcely needs an introduction as a football player. He is considered by all authorities to be the best living player at the game today and he is as good a coach as he is player. Guyon first came into prominence while playing on the Carlisle Indian team during the days when this team was defeating the largest universities of the country. Later he went to Georgia Tech to become the running mate of the noted Strupper. While playing with the Golden Tornado he was two years chosen All-American Half-back and he was considered largely responsible for the showing made by Tech's team during the seasons of 1917 and 1918.

Here at Union the office of Coach is a responsible one. He must be one who has the matter at heart and can see the needs of the students and minister to them. He must have the respect of all or else his efforts will come to naught. As a prerequisite to all this he must be a gentleman. Since more students are engaged in athletics than any other one student activity, it is always a task to find the man best fitted to act as guide and helper in the furtherance of this important phase of student life.

Coach Guyon has the brand of enthusiasm that is infectious and his ready smile and words of encouragement make a fellow want to go in and work like a trojan. The preceding picture shows what happens to a candidate who won't work, and it doesn't take him long to get it. Coach Guyon has a knack of developing star men out of obscure and seemingly unpromising material. He will look a man over and tell him to show up for practice, that he has the earmarks of a football player. Before the season is over the man is holding his own with the best of them and makes his letter over men who have been at the game several years.

Guyon's hobby is his second team. We don't know whether he is training his next year's squad or giving the varsity something to buck up against, but the fact remains that the usually despised scrub gets as much attention as the varsity. For this reason Union always had plenty of good men ready whenever a regular was incapacitated. Another thing we like about Coach is that every man gets a fair chance. No man goes away saying he wasn't given a fair show and no man is kept on the team when he can't deliver the goods. "No favorites" and "No alibies" were his favorite expressions.

While larger institutions may boast of more students, larger buildings or better equipment, we know that we surpass them all when it comes to a coach. He has put Union on the Athletic map of the South and we intend to stay there. We are glad to say that Coach Guyon will be with us again next season and with most of our letter men returning we feel assured of a successful team.

Y. U.
1919

"Brick"

"Jake"

"Womack"

BAXTER, RIGHT HALF AND FULL.

Weight 172 pounds.

Big Baxter hails from the Jackson High School where he was for four years the idol of all athletic fans. The football team was built around him year after year and he never failed to deliver the goods. With two years of coaching by Charlie Lile and some expert instruction while playing on the Marine team in France he came to us a man thoroughly versed in the fine points of the game. His coming to Union brought several other good football men with him and he was welcomed with delight by all who knew of his past record on the gridiron. His team-mates demonstrated their confidence in him by electing him Captain and he was not slow to prove himself worthy of this honor.

Clarence is unusually well developed and is equally good at offensive and defensive playing. He plays a clean game, is cool and reliable and has never been knocked out in a game. Coach Sullivan, of "Ole Miss" proclaimed him the best athlete in prep school circles two years ago. We claim, with Joe Guyon's coaching, he is as good as any college can put out.

JAKE HURT, QUARTER AND LEFT HALF

Weight 138 pounds.

Jake was one of the letter men who returned to Union and was among the first to report to Coach Guyon for duty. He is one of the most dependable ground gainers on the team. While his playing is sensational, he plays the game rather than the crowd. Vanderbilt rooters spoke of him as the reincarnation of "Rabbit" Curry and everyone knows what Curry means to Vanderbilt men. Jake returns next year and is looked upon as a sure member of Joe Guyon's team of fighting bull dogs.

WOMACK, END. Weight 160 pounds.

Womack hails from the Lone Star State and he came to us highly recommended by Marshall College. He had the distinction of making touchdowns against both West Tennessee Normal and "Old Miss" and he figured prominently in other games. Womack plays a cool, steady game and can always be depended upon to do his part.

McCLURE, HALF. Weight 160 pounds.

McClure came to us directly from the service and indirectly from our old rival, West Tennessee Normal. He is unusually fast and his best gains were made around the ends. He has a stiff arm that stops all but the most expert tacklers and his ability to catch a runner is little short to phenomenal. McClure plays his best when he is mad as was demonstrated when he tackled the notorious "Nubbin" Cobb of S. P. U. Cobb carefully avoided coming his way again.

ARBUCKLE, GUARD. Weight 178 pounds.

Roy Arbuckle is an example of both a good student and an efficient football player. His weight and dependability gained him a position in the first string line. Arbuckle hit his opponent's line and made holes as he was accustomed to do to the German lines. We are glad that Arbuckle can be with us again next year.

MERRIWETHER, END.

Weight 147 pounds.

Ike is a Freshman but notwithstanding that this was his first year at the game he made a splendid showing, and won his "U." His faithfulness and diligence at practice won favor with the Coach. He figured in several important games. He illustrates the bull-dog tenacity that is characteristic of Gayon's Bull Dogs.

"Judge"

"Polley"

"All-American"

"Daddy"

"Windy"

"Hardy"

KUHN, FULL AND HALF.

Weight 165 pounds.

Y. P. (Daddy) Kuhn came to us this year from the wilds of Arkansas. He had had a great deal of experience in football, and soon became one of Coach's right-hand men. He proved efficient in filling well the important place of full-back. He is sensational in the game and is very hard to stop when he once gets started with the ball. His good humor, and pep to the last, inspires his team-mates, and wins the admiration of fans. Probably Kuhn's best game was against S. P. U., where his tackling and defensive play was prominent.

POPE, GUARD.

Weight 157 pounds.

We welcomed Pope's coming to Union with delight. Last year he was a first string man on the University of Tennessee team where he proved his efficiency as linesman. Windy plays a steady game with few attempts at spectacular plays. He is a more seasoned man than some of our other linesmen and should make a valuable man next year.

JOHNSON, END.

Weight 150 pounds.

Horace is the third Johnson to come to us by way of the Jackson High School route. Captain "Dooley" back in '07, '08, '09, and Coach Joe in '16 showed what a Johnson could do, and Horace maintained the family record by winning his letter the first year. He is unusually fast and good at evading the opposing interference and getting his man. His playing is constant but not unusually sensational. His best game was at Camp Pike where after throwing the interference he ran down the man with the ball and saved a sure touchdown. Coach praised him highly for his work in the Normal game for recovering fumbles and excellent tackling. Johnson goes to West Point this fall. We predict he will make the Army eleven before his second year is finished.

BANDY, QUARTER. Weight 123 pounds.

Loo Bandy was one of our most dependable men and made his position at Quarter early in the season. He is the only man to our knowledge who has ever been twice elected Captain of the team, but his ability fully justifies that honor. Probably Loo's best game was against the Jonesboro Aggies in which game his headwork and toe work figured prominently.

BURKS, TACKLE. Weight 168 pounds.

Burks was probably the most seasoned man on the team, having played on Perry Callahan's star team of 1915, Joe Johnson's fast eleven in 1916, and Joe Hollinsworth's fighting bull dogs in 1917. He then played a little football in France. Burks is consistently good in his play, and is well liked by his team-mates. His best game was against Camp Pike where his opponents tried to put him "hors de combat" by gouging out one eye.

JACKSON, CENTER. Weight 165 pounds.

Bailey Jackson was another one of the letter men who returned to school. At center his true passes started many successful plays. With his extraordinary weight he was a mainstay in the line. When Jackson was at center the fans felt assured of true passes. He could be depended upon to hold his own line and make holes in the opponent's.

HODGE, HALF. Weight 145 pounds.

In the two years that Hodge has been with us he has proved to be one of our fastest and best backfield men. He comes from a football playing school, having played with the famous McTyeire Prep team, at McKenzie. Hodge is one of the best punters in this territory. On the S. A. T. C. team he outdistanced the "Ole Miss" toe artist by a good third.

"Loo"

"Papa"

"Bait-y"

"Blondy"

"Pig"

"Preacher"

HINTON, GUARD AND TACKLE.

Weight 165 pounds.

Hinton had won the cheers of local fans by his activity on the local gridiron, the year before. So this year he needed no introduction. He was so constant at tackle that Coach never replaced him with another. He holds the record of playing through every quarter in every game staged this season. He will be with us again next year.

MURRAY, GUARD AND TACKLE.

Weight 175 pounds.

David Murray is another Jackson High School product. While on this team he made himself known to the local fans, and they hailed with delight his coming to Union. He is a brother of Roger Murray, who will long be remembered by us, for his wonderful passes. Pig promises to be an even better man than his brother. When he once gets made, his opponents may give up ever trying to stop him.

WEIS, GUARD AND TACKLE.

Weight 163 pounds.

Weis' merit is not in dashing, sensational playing, but in being constantly in the game. He was one of the main-stays in the line that enabled Coach Guyon to work it into the battering-ram that it became. This was his first year of football and we are expecting great things from him next year. If Bennie will stay at the game under Guyon's instruction we think that he will develop into one of the best linesmen in the South.

MAER, END.

Weight 134 pounds.

Wynn Maer shows that a preacher can play football. He has won his second letter at the game. The coach realized his worth at his first practice as he is one of the surest men at tackling, and his ability at getting behind the interference and downing his men is phenomenal. His opponents made very few gains around his end. He plays like he enjoys every part of the game, and we feel sure that his enthusiasm will put him on our gridiron machine again next year.

BASKET ▾ BALL

FERGIE (WM. FURGERSON)

hails from Maury City and made his U the first year here. He is an enthusiastic supporter of all athletics and can always be depended upon to do his share in any undertaking. He plays a good close game at guard and is always cool and dependable. He expects to return next year and will be a dangerous contestant for the position of guard.

SLEEPY (GEORGE JAMES)

is a wonderfully close guard and had he a little more speed it would be practically impossible for his forward to make a goal. He played in several games last year and made his U this year. We hope that he returns to us next year and expect great things of him on the basketball floor.

GOOGIE (GILES GRADY)

surprised us all by making the team, but he was a hard man to roll for his position. While small he is unusually tricky and is a good shot. With a little more coaching he should make a strong man on any team as this is only his second year at the game. He returns next year.

FISH (JOHN ENOCHS)

Captain of 1917-'18 quintet, made his third letter in basketball this year. He is somewhat erratic, but when he is going good is one of the best forwards in this territory. He is somewhat inclined to grand stand but has the stuff to back it up. His best game was against Covington when he threw eight field goals.

PARNIE (JOHN PARNELL)

was one of the few letter men who showed up for the first practice. His duties as manager prevented him from putting in all his time in trying out for the team, but after arranging an unusually good schedule he came out and added another U to his collection. We lose him by the natural route—graduation. We are sorry he won't be back, but guess three years on the team is work enough for one man. Wish we had more like him.

HARDY (HORACE JOHNSON)

came from the Jackson High School where he had played basketball for the past three years. He quickly won a position on the team and proved his ability in every game last season. He is quick to size up his man and plays the game according to the style of his opposing forward. For a guard he is an unusually good shot. He is an all round athlete, having made his "U" in football, basketball, and baseball. We hate to lose him to West Point.

SMITTY (ROBERT SMITH)

is another of the Jackson High School men who came to Union to finish his education. He is an extremely hard man to guard and plays the ball rather than the man. Some six rivals prevented him from getting the show at forward which would ordinarily have been his, but nevertheless he made good. We expect him to make his letter again next year.

KID CASTELLOW

was a valuable asset to the team, but sickness prevented his participating in very many games. He plays forward and center and while our regular pivot man was sick he saved the team by stepping into his place and playing that position in the good consistent way he always plays. Hope he will be back next year.

LONG BOY (E. O. HUNT)

hails from Trenton, Tennessee, and has played basketball on the Louisiana State College team. He is one of the most dependable men on the team and is well liked by his team-mates. He was decidedly our best all around player and was Jackson. Hunt is in the Business Department, but is thinking of taking literary work. Here's hoping he returns to us next year.

JAKE (JACOB HURT)

was elected Captain by the 1918-'19 quintet, but was prevented from showing up at early practice on account of injuries received in football. He was consequently at a disadvantage in making a regular position on the team, but hit his stride about the middle of the season and made his letter. He puts his whole soul into the game and plays hard whether winning or losing. Jake claims baseball as his game and football and basketball as his hobbies. However that may be, he plays all three well and wish we had more like him. We are glad he will be with us next year.

Union had a wonderful baseball team this year. Never before had such a wealth of material shown up for early practice and never before in all our history had prospects looked brighter. Manager Davis produced a schedule that would have done credit to any university in the State and Coach Jake Hurt soon had the "gang" out for spring training. Physical Director Kuhn got the diamond in good shape for us and most of the student body got bitten by the baseball bug and either came out for the team or invested two bucks in a season ticket.

We broke even on our first trip, losing two games to Ole Miss and winning two from Tupelo. The Normal Tiger then invaded the stamping grounds of the Union Bulldog and in the first battle won out by a small margin. The Union Bulldog then displayed its chief characteristic and completely routed the Tiger in the second game. A new star rose on Union's horizon in this game in the shape of Willard Greer, a young Southpaw from the Jackson High School.

For the next two weeks we experienced a slump, losing games that we should have won easily. Ole Miss walked off with two more games and even S. P. U. beat us in a lively contest in a score of 5-4. The remainder of the season we were more successful, however, and it may be said that Union had a very successful team. We administered two good drubbings to S. P. U., and came out well in the City Series.

Coach Hurt deserves credit for the showing made by the team, and Manager Davis is to be congratulated for the splendid schedule as well as for the complete, new outfit furnished the team. No university could boast of a better equipped team than Union.

MESSAGES FROM THE EX-PRESIDENTS OF UNION

Gaffney, S. C.

In order to give your life its greatest value and success, put God first, others second, and self last.

(President 1871-2)

Chas. Manly

Jackson, Tennessee.

To the Students of Union University, who have for so long honored me with their friendship, I offer anew my interest, my esteem, and my service.

(President 1890-1904 1906-7 1915-18)

L. M. Savage

Louisville, Kentucky.

I remember, with deep pleasure, my connection and labors with the University, and watch with profound interest, its expanding growth and great usefulness.

(President 1904-6)

P. T. Hale

Conway, Arkansas.

May our beloved Union live forever; and on and on, through future generations, preach her beautiful evangel; and on and on, far out into the broad and open sea, may she sail, singing her song to the South's youth, till the thousand leagues are past, and agony and crew ride to their heavenly port.

(President 1907-9)

John William Couger

Jackson, Tennessee.

Union University has my heart, my hand, my means. May she ever live and prosper.

(President 1909-11)

A. B. Fitzgerald

Blue Mountain, Mississippi

"Labor omnia vincit".

R. A. Kimbrough

(President 1911-13)

Memphis, Tennessee.

The best investment that I have ever made is what I have put into the education of Christian boys and Christian girls.

(President 1913)

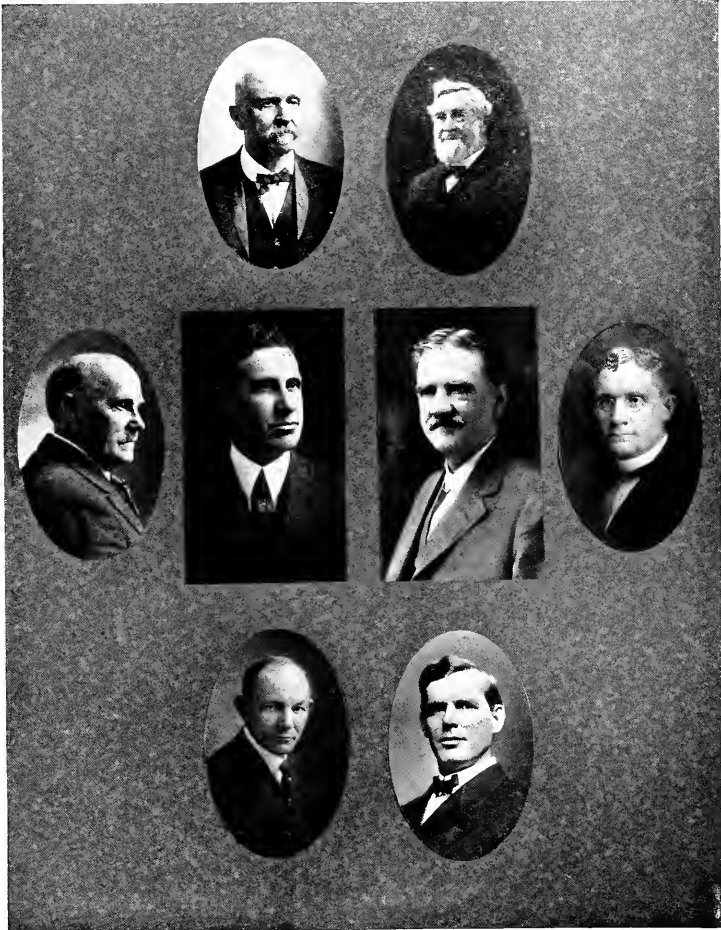

P. M. Lulow

Martin, Tennessee.

Cordial greetings to Union students! We loved each other once, why not be lovers still?

(President 1913-15)

DR. PENICK'S BIBLE CLASS

THINGS ARE NOT ALWAYS
WHAT—THEY SOUND LIKE

Mrs. Derryberry: "So long as Mr. Womack keeps his hands busy at the piano I know he and Sunshine are behaving themselves."

AND FRANK DID AS HE WAS
BID

"This is a dangerous experiment," said Juredini, as he held Miss Cope's hand. "Kimzey, go up and ask Prof. Prince to send me a miniscus."

A Senior French Recitation

Enter Dr. Savage rubbing goatee and mad because chapel has been held overtime in an athletic meeting. Pushes glasses back and calls roll.

"Ahem! M'sieur Johnson late again. He is always keeping his class overtime. He must be out getting up something for the annual that won't amount to a hill of beans and may be a disgrace to the institution. M'sieur Hollowell, where is the lesson?"

Er, er I don't know exactly, Doctor." (Huey tells him). "Wait a minute, Doctor. Just give me time to think. It's on page 112, the impersonal verbs."

Dr. Savage: "Tres bien, tres bien, that's right, Mr. Hollowell. Always take your time and be sure of yourself. Madamoselle Powell, read the first sentence."

Bess: "I didn't study the first part of the lesson."

Dr. Savage: "I wonder where you began then. Ah, Madamoselle, what a delightful pupil you would make if you would but study. Now, I don't often compliment my students, but you are an unusually pretty girl, but how much better the French language would match your complexion if you would but learn it. M'sieur Davis, read the sentence."

"I haven't a book, Doctor."

Parnell: "Let me read it. I'll show you how it should be read." (Aside) "Crump, you tell me."

Crump won't tell him and he makes a failure and claims Dr. Savage should not have surprised him by calling on him so suddenly. He seems so offended that Dr. Savage admits he was a little hasty.

Enter Wilcox and takes wrong seat.

Dr. Savage: "Mr. Wilcox, get in your own seat."

Wilcox: "That's broken, and besides my wife objects to my sitting by the young ladies."

Dr. Savage: "That doesn't make any difference. When I assign you a seat I want you to occupy it. Many a time I have walked twenty miles to be in my seat in chapel. Now, Miss Berta Lou, there's absolutely nothing to laugh about. I'll have to record that against you. Study to be quiet. That's right."

Johnson: "Dr. Savage, don't you think the ancient Greek statues, Winged Victory, Venus de Milo, etc., that have been broken should be reconstructed by modern artists?"

Dr. Savage: "No, sir; I don't think any modern artist is capable. Who, M'sieur Johnson, would presume to improve on the work of the masters? I'm surprised at you for asking such a question. Don't you know the imagination can supply any mission portions? M'sieu Davis, don't interrupt me again."

Joe: "I want to hear your Frenchman talk." Dr. Savage plays the phonograph, and when it is finished, asks Enochs to wake Johnson up.

Carpenter comes in late.

Dr. Savage: "Now, Mr. Carpenter, why will you persist in coming to my classes late?"

Carpenter: "I didn't hear the bell and—"

Dr. Savage: "I notice you always hear the dinner bell. What hour have you vacant today?"

Carpenter (scenting an extra assignment): "I haven't any."

Dr. Savage: "I'll look into that. I think you have too much work, anyway. Look at Mr. Parnell. A perfect student. Never runs around at night, always knows his lesson and goes to prayer meeting every Wednesday night on time. Why can't you pattern after him? Mr. Burks, tell all you know about the lesson."

Carl: "Nothing."

Dr. Savage: "That's right, but I hardly expected you to admit it."

Bell rings.

Dr. Savage: "A very good lesson. Take the next chapter for tomorrow. M'sieu Huey, I appoint you a committee of one to see that M'sieu Davis gets a book."

Joe (indignantly): "Dr. Savage, haven't I heard you say a thousand times that every tub should stand on its own bottom. Besides, I can—"

Class exits.

Glisson: "I couldn't have been speeding, your honor."

Judge: "But you say yourself you were in a hurry."

Glisson: "Well, you know the rule, the more haste, the less speed."

Rutledge (giving exam): "Does any question embarrass you?"

Carpenter: "Not at all, sir, not at all. The questions are quite clear. It is the answers that bother me."

Ike Merriwether: "Go to the dance with me Friday night."

Hattie Clay: "I can't, I haven't anything to wear."

Ike: "Oh! it's not going to be a formal affair, just wear a dress."

Hattie Clay: "What do you think an evening dress is, Ike?"

Ike: "Oh, just a piece of lace, a piece of maline and a couple of confidential straps."

Dr. Davis: "So you say your father is a southern planter."

Louis Sparkman: "Yes, he's an undertaker."

Mrs. Watters: "What's the matter dear, you look worried?"

Dr. Watters: "I understand the board of trustees will require me to stand the freshman entrance examination."

When the referee carried the ball downfield between first and second quarters, Kornelia wanted to know why they were penalizing our men so much.

HEAVENLY HASH

Ruby (at breakfast) "Mother what does God eat?"

AMEN! BROTHER

If the coach wants to teach his line how to charge, why doesn't he hire a landlord?

IF YOU DO YOU DON'T, BUT IF YOU DON'T YOU DO

Interested One: "Say, young man, you don't expect to catch anything if you keep fishing with that loaf of bread, do you?"

Fraternity Pledge: "That's just it. If I keep fishing I won't catch anything; if I stop, I do."

She pinched him on the cheek,
She touched his lips so meek,
She held him on her lap—
For he was canine "Jap."
—*Washington Dirge.*

Y. P. (on telephone): "Have you got anything on for tonight?"

Gladys: "Oh! your horrid thing." She hung up.

Senior: "Did you take a shower today?"
Soph: "No, indeed. Is one missing?"

Employer: "How much service did you see, my man?"

Job Seeker (formerly of S. A. T. C.): "I saw darn little, but I gave six months worth."

"And why, Mr. Oakley," said Prof. Shankle, "do you not care for the works of Shelly and Wordsworth?"

"To much blue sky and pink flowers."
"Well, what do you prefer?" asked the all-wise one.

"White Rock and Green River."

Mother (to daughter off at school): "Can you dress yourself on fifty dollars a month?"

Daughter: "Barely, mother."

The labor question: "Is it five o'clock yet?"—*Orange Peel.*

Quartermaster: "Aye, Aye, sir, we have their fleet bottled up."

Admiral: "Corking, Corking."

We always laugh at Hailey's jokes,
No matter what they be;
'Tis not because they're funny,
But because of policy.

Enochs says the saddest words of tongue
or pen are: "Stung Again."

Berta Lou, holding the bridle up to the
horse's mouth.

Maer: "What are you doing?"

Berta Lou: "Going to put the bridle on
the horse."

Maer: "Why the delay?"

Berta Lou: "Waiting for the horse to
yawn."

Prof. Pearson: "Where was the Declara-
tion of Independence signed?"

Bandy: "Reno—at bottom, right hand
corner."

John Parnell, having lost his umbrella, was
walking down the street and noticed a sign
above a shop—"Umbrellas Recovered."

John walked in and asked the clerk to
please recover his umbrella.

"Hide me! oh, hide me!" wailed the
freshman, rushing into the office to escape
Dr. Savage.

"Get into the simplified card-index case,"
returned Jerinigan. "I defy anyone to find
anything there."

Soph: "How many subjects are you
carrying?"

Fresh: "I'm carrying one and dragging
four."

Dr. Waters: "Let's sing the last verse
over, I heard two or three back there who
were not singing."

"I'll just block this kick," said Coach
Prince, as he poured H2O into the punch.

Juredini: "Say, Prof. Prince, how long
could I live without brains?"

Prof. Prince: "Well, that remains to be
seen."

Rutledge: "Do you know why I won't
marry you?"

Joe Davis: "I can't think."

Rutledge: "You guessed it."

Dr. Savage (to Hollowell on the street):
"My young man, don't you ever attend a
place of worship?"

Dewey: "Yes, sir, I sure do. I am on
my way to see her now."

You can kid gloves
And string beans,
But you can't bull-frogs.

Lena: "I heard you out there. What
was it that "Pullet" said before leaving that
tickled you so?"

Mickey: "It wasn't anything he said."

Prof. Shankle: "Give me a verse about
fleas."

Jake: "Adam
Hadem."

Shankle: "I don't believe in long en-
gagements, do you?"

Rutledge: "Sure, why shouldn't a young
couple be happy as long as they can?"

Messenger (reporting to the king of Ga-
zook): "Your majesty, there are some
ladies stranded on the island without food or
clothing."

The King: "Feed them and bring them
in."

"If you don't like these jokes,
And their dryness makes you groan,
Just stroll around occasionally,
With some good ones of your own."

Alma Mater—Union University

Come comrades all, and raise in dutiful strain
This hymn of her to whom we so much owe,
That through the azure deep of air our refrain
Of thankful praise to her may ever flow.

So sailing with supreme dominion
Over her whom we revere,
The colors of our dear old Union—
Noble spirit, emblem dear!

As each of us so blessed responds to her claim,
The might of our good wishes with her goes.
May perfect peace enshroud her beautiful name
As through the changing scenes of life she grows.

So sailing with supreme dominion
Over her whom we revere,
The colors of our dear old Union—
Noble spirit, emblem dear!

ELEVEN GREAT ADVANTAGES TO STUDENTS IN THE SOUTHWESTERN THEOLOGICAL SEMINARY

- I. Complete Theological courses under scholarly, orthodox faculty.
- II. Two years studies in constructive New Testament Evangelism, and a mastery of the English Bible, 12 courses.
- III. Full courses of study in Gospel Music, Piano and Voice, for Evangelists, and in Religious Education for Sunday School workers.
- IV. A well equipped training school for women as missionaries, pastor's assistants and church workers.
- V. Special opportunities for preachers' wives, a kindergarten and a free nursery for their children.
- VI. A summer school for men and women, busy pastors and returned missionaries, June 1-July 8.
- VII. Free correspondence courses covering wide range of studies with credits toward degrees.
- VIII. The Sweep, uplift and fellowship of a great enthusiastic student body, 512 enrolled for 1919-20, from every State in South, many States in North, British Columbia, Russia, France, Sweden, Brazil.
- IX. A wide field of Baptist pastorates for students and aid on personal expenses where needed.
- X. A glorious spiritual, evangelistic, missionary atmosphere, in which to study, win souls and work for Christ.
- XI. A royal welcome to a happy hard time in preparation for Kingdom Service.

LOOKING FORWARD

Never before in the history of the world have young men, college trained men, been in demand as much as they are today. It is the New Era for young men and it is with a feeling of both pleasure and regret that we bid farewell to the departing students of this University; it has been a pleasure to have served you and we hope to see you again. To the Freshmen, Sophomores and Seniors of next year we are glad of the opportunity of catering to your wants as we have in the past.
